Magac Afaran:	
Rool Lambar:	
Dugsiga:	
Xarunta:	

Fadlan u akhri tilmaamaha si kaadsiiyo leh kahor inta aadan ka jawaabin su'aalaha:

- Ku qor meelaha u bannaan magaca oo dhammeystiran, roollambar, dugsiga iyo xarunta.
- Ka jawaab dhammaan su'aalaha. Su'aashii aan laga jawaabin lama saxayo.
- U qor si muuqata, kuna qor qalin leh qad buluug ah.
- Isku day in aad ka jawaabto dhammaan su'aalaha imtixaanka.
- Ku toosnow dhammaan shuruuca imtixaanka iyo waqtiga loo xaddiday.

Hubi in imtixaanku ka koobanyahay 5 Bog

PART ONE: Comprehension

Read the passage then answer the questions that follow

Food can make our life safe and healthy. It can destroy as well. Good food serves as medicine, it gives us health and energy to do work. On the other hand, bad food can be poison. A little care about the quality and quantity of food to eat will keep us healthy and happy. If we continue eating all types of food, we shall become sick. We must be civilized for what we eat. But we have to know the difference between good food and bad food or the right and the wrong. It is not good to become slaves to our tongue or taste. Even cattle, birds and beast eat only what is best for their body. We mostly eat processed food and refined sugar. We pay heavily for junk food. As a result we catch diseases. We have left away from domestic food. We laugh at the rules of hygiene, healthy diet and the advice of our nutritionists. This has given rise to diabetes. We give sweets food like chocolates, cakes and ice creams too often to our children. We also attend parties or eat food from outside everyday, this way we invite obesity and diabetes.

Most people like to eat many varieties of diet by not considering how bad it could be for their health. A community must know which sort of food is important for their health and body. In order to prevent dangerous diseases such as cancer, diabetes and hypertension, People must eat healthy food which are available at the local market especially millet, maize, rice, beans likewise Somali farmers grow a lot of vegetables including tomatoes, onions and spinach as well as fruits like mangoes, pawpaw and lemons. A person who daily eats them will be free from viral and bacterial killer diseases. The health advice to the community is that they must avoid eating foreign imported food that could be poor in terms of quality and the date of production. Instead they should strive eating the domestic food for it is healthier and safer.

Most of the products that are brought to our country are not safe. To avoid this, we have to use our locally available food that we produce that are clean and safe and does not contain any toxic substances, for it's natural, it doesn't contribute us to bad health instead we get good health. The food we eat should contain all types food classes like carbohydrates vitamins, minerals proteins which are all important for our daily health. This will be a balanced diet. The person eating the local available food compared to the one eating food brought from outside cannot be the same health always, the one using the locally available food is more energetic and healthier than the person eating clean food. We can purchase the fresh food directly from the farm or the market.

AFTER READING THE PASSAGE CIRCLE THE CORRECT ANSWER. (14 Mrks)
